It kept scratching till the sleep nights say more. It kept itching for about a month, then I went to a doctor and got some liquid to take. It seemed as if I was going to get better. The tiching stopped for about three days, but when it started again, was even worse than before. The eczema itched so badly I couldn't stand it any more. I went to a doctor and he gave me some medicine, but didn't do any good. I had been using Cuticura Soap, so I got me a box of Cuticura Cintiment, and washed off the affected part with Cuticura Soap three times a day, and then put the Cuticura Cintiment on. The first day I put it on, it relieved me of liching so I could sleep all that night. It took about a week, then I could see the scab come off. I kept the treatment up for three weeks, and my eczems was cured. My brother got his face burned with gun-powder, and he used Cuticura Soar and Ointment. The people all thought he would have scars, but you can't see that he ever had his face burned. It was simply awful to look at before the Cuticura Rem edies cured it." (Signed) Miss Elizabet.
